FOR IMMEDIATE RELEASE

Tredyffrin Declares Snow Emergency

Berwyn, PA (January 4, 2018) Tredyffrin Township has declared a Snow Emergency for Thursday January 4th starting at 11am and ending at 1am January 5th. As a result, there is no parking permitted on designated snow emergency routes. Residents are prohibited from parking in the circular part of any cul-de-sac, which impedes the snow removal process. Please follow the link to the Township Code for more information - <http://ecode360.com/7115463>.

The list of snow emergency routes is on our website.

Please note it will take 10-12 hours *after* the snow ceases to complete our clean up operations with a storm of this size.

Keep the follow emergency guidelines in mind:

- Follow updates by the National Weather Service.
- Anticipate poor road conditions and when possible avoid traveling on snow/ice-covered roads, especially overpasses, and bridges. Use main roads and plan trips to avoid extreme curves and hilly areas.
- Do not travel at all when visibility is poor.
- Follow Plow Trucks at a safe distance and allow plenty of room. Also, think likely that the driver may not be able to see you at all times and anticipate sudden stops or turns.
- If you must travel, always take your mobile phone with you and medical/health information. Have necessary medications on hand. If you are a diabetic (or other health issue) please remember to wear the medical alert bracelet.
- If you must travel, let someone know your destination and when you expect to arrive. Ask them to notify the police department if you fail to arrive or check in.
- Check and restock the winter emergency supplies such as water, snow brush/ice scraper and extra warm clothing and or a blanket in your car before you leave.
- Never strike and or pour water on your windshield to remove ice or snow; shattering may occur. Also clear all of the snow or ice from all windows, headlights and tail lights for maximum visibility.
- If you are having a medical emergency, call 911 and responders will transport you to the necessary medical facility.
