

# Call for Location: Public Painted Piano Project

The Tredyffrin Township Arts Commission is seeking a welcoming, publicly accessible location within the Township to host a painted public piano.

As part of its mission to promote the arts and foster community connection, we would like to install an artist-painted piano that residents and visitors can enjoy throughout the seasons. This interactive art piece will provide a space for spontaneous music-making, creativity, and shared community experience.

We are looking for a site that:

- Is publicly accessible and highly visible
- Offers protection from weather (covered or semi-covered preferred)
- Has nearby foot traffic to encourage engagement

If you represent a business or organization in Tredyffrin Township and are interested in partnering with us, we would love to hear from you.

To discuss this opportunity, please email the Commission at [tredyffrin@tredyffrin.org](mailto:tredyffrin@tredyffrin.org) and put Arts Commission in the subject line.

Let's bring music and art into the heart of our community!
