 - A. **UPDATE:** South Valley Rd/ East/West Circular Ave. – PADOT planning to install the Multi-Way Stop signs/Intersection Improvements Spring (April -June 2026).
 - B. **UPDATE:** PA Turnpike has started its Phase 2 – Reconstruction and Widening Project in Tredyffrin Twp. Work will be occurring from SR. 0252 (by Service Plaza) west to the East Whiteland Twp. line or Howells Road. Anticipate some detours/ road closures over the next 4-years for overhead bridge work at Diamond Rock/Yellow Springs and North Valley Road, and Howells Road.

Township Project Updates –

1. Paoli – Twp. PW will be working with Higgins (our Signal contractor) for replacement/relocation of a traffic signal pole/mast arm on the NW corner of the North Valley Road/SR 0030 intersection in Paoli this spring.
2. Old State Rd – With TESD Project – Old State Road will become a 2-lane roadway from Conestoga Rd to Cassatt Rd. Updates will be needed to add this to Twp. code later in 2026, as well as include a No Parking restriction entity on NB/EB side of Old State Rd from Conestoga Rd all the way to Cassatt Rd, and SB/WB side of Old State Rd from Cassatt Rd past the new TESD Turf Field Driveway access to Old State Rd. Currently code has 2-way from intersection of Cassatt Rd – so many ft, then 1-way.
3. Upper Weadley/Willis/Arlyn – Twp. Stormwater Project continues drainage and stormwater management work activities. Twp. contractor will be working through June '26. Curbing replacement was recently completed on Upper Weadley Rd, and temp. restrictions for thru traffic (local traffic only) will remain in place for several months until June.
